

PROJECT HELIOS

Our AI agent Helios is designed to streamline, scale, and enhance our business development operations.

By combining conversational AI with powerful integrations, we connect with prospects, qualify leads, and book high-conversion calls - all while capturing valuable insights.

THE ULTIMATE AI CUSTOM WEB3 AGENT

AI ENGAGEMENT

Engage & Qualify Automatically

Helios acts as your always-on sales assistant, engaging prospects at scale and qualifying them with precision and accuracy.

- Proactively calls prospects and starts authentic, human-like conversations
- Asks targeted questions to assess fit, interest, and readiness
- Works 24/7 to keep your pipeline active and no lead missed

WORKFLOW INTEGRATION

Data & Workflow Integration

Every interaction the AI has is analyzed, and synced directly into your systems, giving your team a real-time, unified view of the pipeline

- Pushes data to Airtable, Slack, calendars, and more automatically
- Tracks status, deal stage, notes, and follow-up in one place
- Keeps your team focused on closing.

CLOSE RATE OPTIMIZATION

Boost Your Close Rates

Helios helps you move faster from prospect to partner by filtering for high-quality leads and booking only the best on your calendar

- Automates outreach and passes only warm leads to your team
- Custom scripts match your Web3, AI, or DePIN messaging
- Speeds up deal cycles and improves conversion rates

IRON KEY HELIOS OPERATIONS (HELIOS VOICE AGENT)

- Helios automatically contacts and engages prospects via phone, with personalized, human-like conversations.
- Smart scripts qualify prospects and collect key insights without manual effort.
- All interactions are logged in real-time to Airtable, Slack, and our CRM.
- No ongoing manual costs or operational overhead.
- Helios runs 24/7 – think of it as always-on deal sourcing and qualification.

KEY BENEFITS:

1. **Hands-free qualification:** Let Helios pre-qualify leads so your team focuses on warm, high-potential opportunities.
2. **Pipeline acceleration:** Get more closing calls booked with less time spent on cold outreach or data entry.
3. **Insight advantage:** Gain immediate visibility into prospect readiness, trends, and pipeline health.
